

**Construction-Built Environment Career Profile
Building Our Future Workers
Through YOUR Story**

The Construction Forum and its *Emerging Leaders* group want to hear from you as we continue to facilitate and support workforce development through education and awareness of careers within the construction-built environment industry. We established a career profile section within our website www.YEAHIBUILTTHAT.org by asking those in the field to share their career path.

Along with the included form, we are asking each individual to send a photo of him/her - self at work or on the jobsite. It is best to send the photo as a separate attachment in one of these formats:

- JPG
- PNG
- EPS

Image size should be at least **300 x 336** pixels at **72** PPI.

We are collecting the career profiles and showcasing the numerous roles within our industry. There are many individuals that need to know the great work you do and possibilities for their future.

Your story of your career path will hopefully spark the interest and awareness to those seeking guidance and understanding of the many roles within the industry. Our goal is to reach **200** career profiles in our region that can proudly represent those that do the work to build our communities.

Please return form with your photo attached to: diana@constructforstl.org or call 314-880-2063 (Ext. 303) for more information.

**Construction-Built Environment Career Profile
Building Our Future Workers
Through YOUR Story**

1. Name: _____
